## The Center for Wellness and Rehabilitation

With two locations to serve you at 1015 Kelley Dr. and 311 E. Wood St., our Center for Wellness and Rehabilitation provides the following services upon referral:

- Orthopedic rehabilitation
- Neurological rehabilitation
- Sports medicine
- Acute and chronic pain management
- Work capacity evaluations
- Work conditioning
- Hand and upper extremity rehabilitation
- Women's health
- Speech & Language therapy
- Balance and coordination training
- Patient/family/caregiver education
- EMG services
- Vestibular rehab

The Kelley Drive location focuses on adult physical therapy, occupational therapy, and speech therapy while the East Wood Street location focuses on pediatric services.

## Lake Haven Behavioral Center

Lake Haven Behavioral Center offers a thorough, professional evaluation to determine underlying medical or biomedical origins to the behavioral symptoms. The team then works with the patient's family and our support professionals to develop the best course of treatment. Our 22-bed facility provides the following therapeutic services:

- 24-hour behavioral health nursing care
- Behavioral health diagnostic assessment and evaluation
- Medication stabilization and management
- Individual and group therapy
- Patient and family education
- Discharge planning and after care planning

We accept referrals from physicians, human service organizations and family members as well as self-referrals. Referrals may be made 24-hours a day. Voluntary and involuntary referrals are accepted.

## Home Health & Hospice

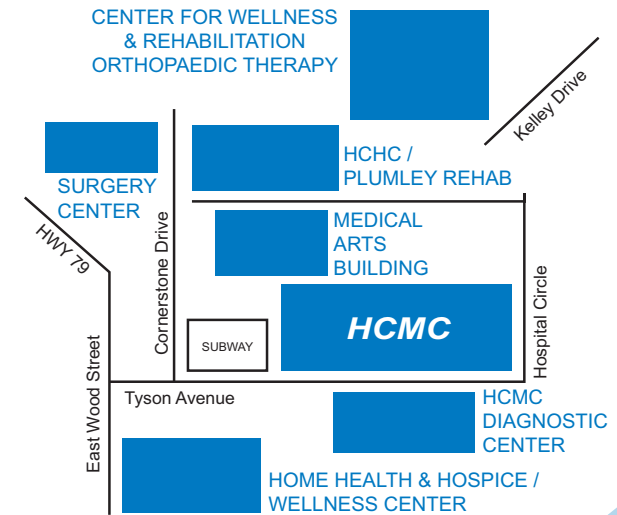

Located at 311 E. Wood St., our patients are those who need skilled care in the home, under the care and referral of a physician, and must be home bound.

Hospice is support for people with limited life expectancy and their families.

There is an RN on call 24-hours a day taking care of doctor's orders. We offer Social Worker counseling for patients and families, a medical director for consults with physicians and pharmacists for orders on pain control, physical, speech, occupational and dietary counseling.

Home Health Services include:

- Skilled nursing care
- IV therapy - Chemotherapy
- Pediatric & maternity care
- Physical therapy
- Occupational therapy - Speech therapy
- Home health aides - Medical social services
- Laboratory services - Medical supplies
- Wound care - Patient caregiver teaching
- Injections - Central line maintenance

## HCMC Surgery Center

Offering outpatient surgery and procedures for patients who expect to spend only a few hours in the surgery setting.
